Exercise 7
Date:

Experiment with different layouts and color schemes for an app. Collect user feedback on aesthetics and usability using GIMP(GNU Image Manipulation Program (GIMP)

AIM:
The aim is to design and experiment with different layouts and color schemes for an expense tracking dashboard and evaluate user feedback on aesthetics and usability using GIMP.

PROCEDURE:

Tool Link: https://www.gimp.org/

Step 1: Install GIMP

- Download and install GIMP from the official website.
- Launch the application after installation.

Step 2: Create a New Project

1. **Open GIMP:**
   - Launch the GIMP application.
2. **Create a New Canvas:**
   - Go to File -> New to create a new project.
   - Set the dimensions for your app layout (e.g., 1080x1920 pixels for a standard mobile screen).

Step 3: Design the Base Layout

1. **Create the Base Layout:**

Using Rectangle Select Tool, divide into:

- **Header Section**
  - App name: *BillBunk*
  - Tagline
  - Logout button
- **User Info Section**
  - Username
  - Total Expense
- **Summary Section**
  - Expense categories (Food, Travel, etc.)
  - Simple chart representation
- **Expense List Section**
  - List of recent expenses
- **Bottom Navigation**
  - Personal | Group

2. **Add UI Elements:**

- **Text Tool:**
  - App name (BillBunk)
  - Labels (Total Expense, Categories, etc.)
- **Shape Tools:**
  - Buttons (Add Expense)
  - Input-style boxes (for expense cards)
  - Chart placeholders (circles/rectangles)

Example Output:

A dashboard showing total expense, category-wise summary, and expense list.

3. **Organize Layers:**
   Create separate layers:

- Header
- User Info
- Summary Cards
- Expense List
- Add Expense Button

Rename layers properly for easy editing.

Step 4: Experiment with Color Schemes

1. **Create Color Variants:**
   Duplicate base layout (Right-click → Duplicate)

Create 3 variants:

Layout 1: Blue Theme

- Header: Blue
- Background: White
- Buttons: Blue

Layout 2: Soft Red Theme

- Header: Light Red / Pink
- Background: Light Pink
- Buttons: Red

Layout 3: Teal Theme

- Header: Teal

  Background: Light

  Cyan

- Buttons: Teal

Modify colors using:

- Bucket Fill Tool
- Colorize Tool

Example Output: Multiple color variants of the same layout.

2. **Save Each Variant:**

- File → Export As
- Save as:
  - Layout1.png
  - Layout2.png
  - Layout3.png

Step 5: Collect User Feedback

1. **Prepare a Feedback Form:**
   - Create Google

     Form Include

     questions:

     - Which layout looks best?
     - Which is easy to use?
     - Which color is comfortable?

   2. **Share the Variants:**

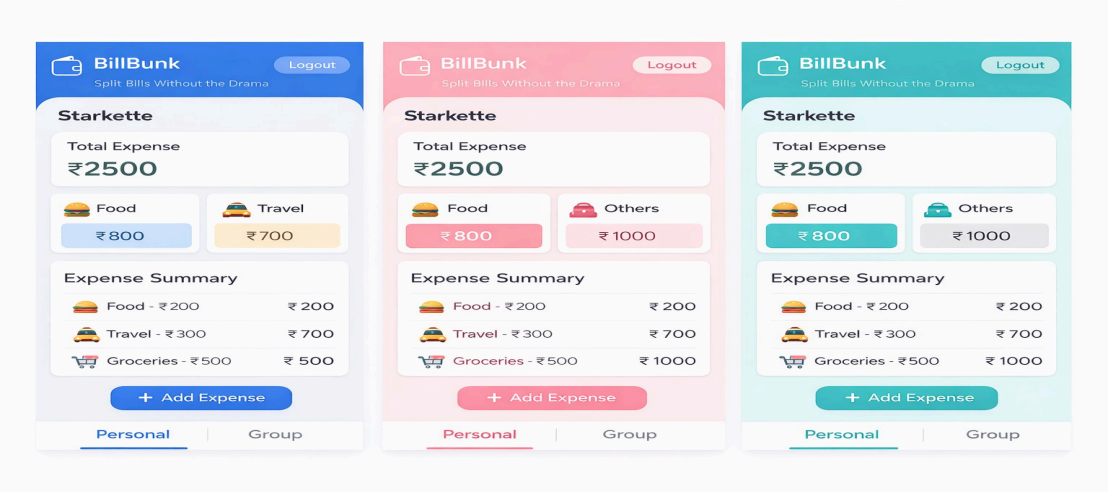
   Share all 3 dashboard images

Provide instructions to users

3. **Gather Feedback:**

   Example Feedback:

   - Layout 1 (Blue):
     - Clean and professional
     - Easy to understand
   - Layout 2 (Red):
     - Attractive but slightly bright
   - Layout 3 (Teal):
     - Minimal and modern
     - Good readability

Step 6: Iterate and Refine


1. **Refine the Design:**
   - Select best layout based on feedback
   - Improve spacing and colors
2. **Final Testing:**
   - Verify usability and clarity
   - Ensure dashboard is easy to navigate
